

Instructions for creating your Personalized Jogathon page.

The below information is to help parents create a customized donation page for their family. Creating a personal page is an easy way to get the word out using e-mail, text or your social media platforms. Follow these quick steps to get your personalized page started:

- (1) Go to our school website www.olmmschool.com and click the Jogathon logo on the home page under NEWS or scan the below QR Code.

- (2) From the Jogathon Home page, click the image “[Create my own fundraising page!](#)” [2021 Jogathon HomePage](#)

(3) You will be prompted to enter your Student(s) name(s) or Family Name (if more than one student) and an email address. Once submitted, you will receive an email with a subject line that reads “*Personalize your Crowdfunding Page*”.

(4) The above email will provide you with a link where you can EDIT your page before sharing it. Be sure to include your fundraising goal amount, a customized message, and a photo or a meaningful image that will resonate with your page visitors. NOTE: A photo or image will ensure that your donors will donate to areUR PERSONAL Page and not the main school fundraising page.

5) Once your message and image are saved, you will then receive a 2nd email that will help you SHARE with family and friends.

Thank you for creating your personal pages and helping us make our 2021 Jogathon the best one yet!
